

QUICKCLOSE CD

To install the Version 3 software on the calculator, detailed instructions are described in the **version3.pdf** file of the manual, located in the **MANUAL** folder. To view the manual properly, it will be necessary to install the **49G.TTF** and **HP48Menu.ttf** true-type fonts included in the folder (as these are non-embeddable).

To install Version 3 on the PC using the emulator, refer to the instructions (**pcemulator3.pdf**) in the folder; **PCEMULATOR**

To install Version 3 on a Pocket PC or PDA such as an IPAQ, refer to the instructions (pdaemulator3.pdf) in the folder; **PDAEMULATOR**

To install Version 2 on the calculator, PC or Allegro CX, refer to the instructions in the folder **VERSION2**

CD Contents Description

CONNKIT

Contains the Windows HP Connectivity Kit software

This has to be installed on the PC first, to enable communication and transfer of files to the calculator
